Big Take Away

Our favorite part was Saul/Paul's remarkable transformation and how God used him to spread the Gospel and help establish the early church. We were especially amazed by the pervasive theme of God's love throughout the entire Bible, from Genesis to Revelation.

PRAYER & THANKS

* YWAM Staff

Pray for guidance in finding our place at YWAM in God's plan and for our gifts to be used to further His Kingdom.

* Housing

Pray that we find a place to live that works with our budget. We are hoping to live close to the base.

* Bible School Funding

We are grateful to God and to you for fully covering our funding for the Bible school. Please keep us in your prayers that our financial needs will continue to be met as we progress along our journey.

Graduation Day

We Did It!

What a quarter this has been! We're so excited to share that we successfully graduated from our 3-month Bible school (YWAM DBS) here in Panama.

These past three months were intense but incredible. Picture this: every day from 7:30am to 9pm, Monday through Friday, we were deep in lectures, Bible reading, and homework. We actually read the entire Bible from Genesis to Revelation and studied every single book!

Some of our weekly topics included Origins and Worldview, Pentateuch, David, Early and Late Prophets, Jesus, and the Early Church. One of our biggest challenges was presenting the entire messianic line through the whole Bible in just 45 minutes - but we did it!

The intensity was real, but we got through it together with good communication, lots of encouragement, and ending each day in prayer. What a blessing to tackle this challenge as a team!

We are Engaged!

Well, I finally made it official by asking Viviana to marry me. In typical Noah fashion, I did it about 60 seconds before a downpour on July 27th. Viviana said yes, and the date has been set for November 29th at the YWAM Base.

Current Season & Next Steps

We're taking some well-deserved time to rest and spend quality time with Viviana's family. At the beginning of October, we'll be back at the base as full-time staff.

Our main goal for the next quarter is getting settled in as staff at the YWAM Panama-Boquete base. We're currently looking for an affordable home to rent close to the base - prayers for the perfect place would be amazing!

We're also finalizing our specific ministry roles. I'll be working with all the networking and technology - helping on the technical side with events, visiting groups, mission trip groups coming to the base, and schools held at our base. Viviana is excited to work in camp ministry, focusing on children, youth, and women within the camp. We haven't figured out all the exact mission groups we want to work with yet, but we'll know soon!

Prayer and Blessing

This summer, a wonderful blessing was my parents' visit while Viviana and I were attending school. After we shared our engagement with the staff and classmates, everyone offered their prayers and blessings for us and our future together in serving God as a married couple.

MEI is our support agency

We Need Your Prayers!

The success of missionaries throughout history has always relied on the prayers of those who are committed to interceding.

Additionally, we are striving to reach a monthly support goal of **\$2,000** to cover essential needs such as housing, food, ministry, healthcare, and more. Currently, we have raised **\$685** towards our \$2,000 goal! If you feel led to contribute or support us on a monthly basis, you can do so through **Mission Enablers International (MEI)** or **Venmo**. If you would like to connect with us or arrange a visit, the best ways to reach us are via email or through a message on WhatsApp. We truly enjoy hearing from you and sharing the wonderful things God is doing!

Thank you for being such a remarkable support system. We couldn't do this without you!
